### **Rebuild the Middle Class**

Dear Senator Feinstein:

America's middle class is hurting more now than at any time since the Great Depression. We're losing our homes, our jobs, our retirement and our health care. We need to restore balance to the economy immediately.

One of the main reasons for the current economic crisis is that workers have lost the ability to bargain with our employers for better wages and benefits like health care. The Employee Free Choice Act would restore workers' freedom to bargain for a better life. This crucial legislation will protect workers' freedom to choose a union, without management intimidation. Allowing more workers to freely join unions and bargain with their employers will help rebuild the middle class by expanding health care, improving retirement security and raising the standard of living for America's working families.

Thank you for your past support of this important bill. Your leadership was critical in the bill gaining majority support in the Senate in 2007. But we need your leadership and support now more than ever. Please help restore our freedom to bargain for a better future by supporting this bill in the 111<sup>th</sup> Congress. It's time we build an economy that works for all.

**Sample letter to Feinstein #2**

**WalMart Family Riches at the Top  
WalMart Workers at the Bottom**

Dear Senator Feinstein:

We need good jobs to re-build America - Jobs that have pensions, healthcare and living wages.

Workers need the right to organize so that they can work with their employer to make sure that companies share their economic gains with their workers. Families like the Waltons, whose profits from WalMart are in the billions, are in the top 10 wealthiest families in the world. Their workers have low wages, few benefits and qualify for public assistance in many communities. WalMart has fought their workers right to organize and closed stores rather than bargain a contract.

Please support the Employee Free Choice Act so that working families can have the rights that our "free" country promotes. You should not have to give up your rights when you go into your workplace. We cannot build a strong country on WalMart type jobs.

Thank you very much,

**Top Professionals have Unions  
Workers should too**

Dear Senator Feinstein:

Corporate Executives, lawyers, doctors and most other professional occupations have union/associations and contracts that protect them. Working people should have those same rights and be free to form a union without their employer interfering.

Please support the Employee Free Choice Act. It gives working people the right to have a voice on the job and levels the field so that workers can have a majority sign up to have a union.

We can only re-build our economy with good jobs where workers have money to spend and are able to buy goods beyond the necessities.

Thank you very much,
